

How to switch to 4.0.

- There are 3 prior versions of Profit Solver 3.0 ; 3.1 ; 3.2
- 3.1 and 3.2 users simply bring up the psft2 file and begin working.
- For all users still on 3.0 please send us your data file (psft) for conversion to a psft2 data format.
- After 4.0 is installed and running, delete the previous version Profit Solver icon on the desktop.

Once you retrieve your file in version 4.0 you cannot go back and use the file in 3.2 because of information that has been added that is dependent on each other.

** Save a backup first. Open up Profit Solver and then file :open and retrieve your data file. Click on file save as and in the name box type in company name, date, backup (feetech 100415 backup). Click on Save; to save in My Documents or your specified location..

New registration screen

- For all 3.0 and 3.1 users there is a new registration screen so please call us for a new registration number.
- All 3.2 users do not need a new registration number.
